

# Key Features

This is a fundraising tournament to help us stock local lakes with more muskies for us to fish.

This includes stocking of the Okauchee chain of lakes, including Okauchee, Oconomowoc, Fowler and Labelle.

We may also stock area lakes and rivers that currently have a low density of fish.

We appreciate any and all support in this cause.

The payout schedule may vary depending on entries received, but the total payout will be 66% of entry forms. The payout schedule (places) will be determined, by the group at the rules meeting.

34% of the entry fees will go in to the general ledger of the Milwaukee Chapter of Muskies Inc. That amount will be set aside for only stocking purposes.

Members of the Muskellunge Club of Wisconsin will receive the member price.

## Purpose

This is a fund raising tournament.

In the past, Much of the money raised was used to benefit our Muskie rearing and stocking effort for Okauchee and Pewaukee Lakes. Originally, the funds were used for support of our Pewaukee Lake Research Project which is said to be one of the most comprehensive studies of Muskies ever done on a single body of water. We have historical records for Pewaukee Lake on water quality, weed control, fish stocking, fish surveys, capture data, fyke netting, tagging, radio tracking, creel surveys, water sampling, and feeding habits, related to the watershed and Muskie behavior for a heavily managed lake.

Currently these funds will be used to stock area lakes such as Pewaukee, Okauchee, , Fowler, Labelle or Oconomowoc.

Funds may also be used to stock other area lakes and rivers that currently have low densities of fish.
